NSTN, Inc. and Collection Data Systems (CDS) Announce Software Integration.

Dallas, TX – January 25, 2007 – NSTN and Collection Data Systems are pleased to announce the integration of their systems. CDS Tiger software users are now able to easily transmit and receive data files from NSTN, Inc to meet their skip tracing needs. The automated transmission of data will provide additional opportunities for the clients of both companies to further simplify their processes.

“As we focus on broadening our software partnerships in the credit and collection industry, we are pleased to announce the integration of our system with CDS Tiger. We are always striving to streamline our clients’ processes, and we look forward to the benefit this creates for the end users,” said Chris Kizziar, NSTN president.

For additional information on NSTN visit www.nstn.net or e-mail sales@nstn.net. For additional information on CDS visit www.cdstiger.com or e-mail sales@cdstiger.com.

About NSTN

NSTN, Inc. is a trusted source and leading provider of information. NSTN applies proprietary filters to billions of public and privately maintained records to return the unique and accurate information their clients require. By staying informed of legal changes and industry trends, NSTN is able to ensure its customers the most up to date information. The focus at NSTN is on establishing and maintaining long term relationships by providing quality, up-to-date information with exceptional service in a cost efficient manner.

NSTN strongly promotes the responsible use of information (GLBA compliant), adhering to strict standards regarding the use and dissemination of personal information.

About Collection Data Systems

Founded over 36 years ago, CDS has grown to be an industry leader in collection software. Our flagship product line, Tiger, is a single source solution for collection automation. We continue to redefine the collections process with real-time skip tracing for immediate access to debtor information and real-time check and credit card processing that give collectors the ability to immediately secure funds. The Tiger offers an industry leading group of standard integrations including credit reporting, predictive dialing, and voice recording.
